SUPPLEMENTAL REGISTRATION STATEMENT
INTERNATIONAL REGISTRIES, INC. #4533

III. ACTIVITIES

Pursuant to a legislatively endorsed joint venture with the Government of the Republic of the Marshall Islands (RMI), The Trust Company of the Marshall Islands, Inc. (TCMI) was appointed as the RMI Maritime Administrator and Non-resident Domestic Registrar of Corporations. The joint venture was filed with the Registration Statement of International Registries, Inc. (Reg. No. 4428) on October 9, 1990.

During this reporting period, TCMI conducted the following activities in the administration of the RMI Maritime Program:

- prepared certificates of registry, vessel radio licenses, and certificates of vessel ownership and encumbrance;
- recorded ship mortgages and related instruments;
- accepted and reviewed applications and documents for vessel registration;
- issued seafarer's identification books, certificates and licenses for masters, officers, and crew ratings serving on RMI-flagged vessels;
- Prepared and administered examinations for seafarer's licenses;
- maintained records relating to RMI-flagged vessels;
- investigated and reported vessel casualties as required by international conventions to which the RMI is a party;
- conducted marine inspections as required by international conventions to which the RMI is a party;
- communicated with shipowners, operators, and lawyers representing the owners of such vessels;
- appointed and utilized nautical inspectors in the United States and foreign ports to board and examine RMI-flagged vessels and, as authorized, to collect fees to cover costs of such inspections;
- collected fees for the purpose of defraying costs of marine investigations, participation dues to international organizations, and attendance at international maritime and labor meetings and conferences;
- enforced the Republic of the Marshall Islands Maritime Act and Regulations for all matters related to maritime affairs arising outside of the Republic of the Marshall Islands and its territorial waters; and
- distributed to owners, operators, and officers of RMI registered vessels, and to others upon request and payment, copies of and supplements to the RMI Maritime Act 1990 as amended (MI-107), RMI Maritime Regulations (MI-108), Requirements for Merchant Marine Personnel Certification (MI-118), Vessel Registration Requirements and Mortgage Recording Procedures (MI-100), Marine Investigation and Hearing Rules (MI-260), Safety Code of Practice for Large Yachts (MI-103A), Safety Code of Practice for Small Yachts (MI-103B), and other information concerning the registration and operation of vessels engaged in international voyages. These publications can be accessed via the web-site of the registrant at www.register-iri.com; and
- participated in international maritime and labor organizations and maritime control and safety agencies of other nations, including the United States.

In addition to the above maritime activities, during this reporting period, TCMI conducted the following activities in the administration of the RMI Corporate Program:

- formed non-resident domestic business entities (corporations, partnerships, limited partnerships, and limited liability companies) pursuant to the RMI Association's Law;
- issued certificates and other documents applicable to non-resident domestic business entities;
- communicated with qualified individuals seeking to form RMI non-resident domestic business entities; and
- collected fees for the formation, maintenance, and issuance of documentation and certificates.

In order to facilitate its administration of the maritime and corporate programs, TCMI has engaged International Registries, Inc. to provide administrative and marketing support services throughout the world. During this reporting period, International Registries, Inc. provided marketing and administrative services in the United States at the following locations:

- Reston, Virginia – 11495 Commerce Park Drive, Reston, VA 20191
- New York, New York – 1500 Broadway, Suite 2001 New York, NY 10036

Republic of the Marshall Islands First Choice for Gas Carrier Owners

The Republic of the Marshall Islands (RMI) Registry remains the choice of flag for owners/operators of the world's gas carrier fleet. The RMI has registered more than 150 gas carriers over the years, with the first gas carrier registration taking place in 1997. As of the end of July 2014, there were 120 active gas carriers in the RMI fleet (53 liquid petroleum gas (LPG), 65 liquid natural gas (LNG) and 2 LNG/LPG carriers). Over 15% of the world's gas carrier fleet, in terms of cubic meters, is registered with the RMI. International Registries, Inc. and its affiliates (IRI) provide administrative and technical support to the RMI Registry and have hired another expert to better support this unique market. Eric Linsner, who joined the Registry's New York office in 2011 as an LNG/LPG Specialist, was joined in July 2014 by Capt. Warren Kedenburg, the Registry's LNG Advisor, who is living and working in Japan.

"While 75% of the gas carriers in the RMI Registry were built in yards in Korea, Japan and China, more than 25% of the Registry's gas carriers were delivered from yards located in Japan," said Masaharu Okamoto, IRI's Chief Representative in Tokyo. "Having a liaison like Warren working locally with the owners, classification societies, and yards in Japan and Asia is in furtherance of the Registry's initiative to more effectively service clients," he continued.

Both Eric Linsner and Capt. Kedenburg spent the majority of their careers working for Energy Transportation Corporation and PRONAV Ship Management. "Capt. Kedenburg was the Master of the LNG TAURUS for nearly two decades before he came ashore in 2000, which is when the LNG TAURUS joined the RMI Registry," said Bill Gallagher, President of IRI. "We are pleased that Warren has joined the Registry; with his experience at sea and in the development, planning and execution of LNG projects, coupled with Eric's development of international gas carrier regulations, we have a very sophisticated and experienced team," continued Mr. Gallagher.

The RMI Registry works closely with owners and operators. Those owners operating vessels registered under the RMI flag achieve consistently high ratings in the port State control (PSC) international rankings. The RMI Registry continues to be white listed on both the Paris and Tokyo Memorandums of Understanding (MoUs). While the 2013 United States Coast Guard (USCG) Annual Report has not yet been published, the RMI Maritime Administrator received a certificate from the USCG recognizing the RMI's 2014 qualification for Qualship 21. This marks an unprecedented tenth consecutive year that the RMI has achieved this recognition; no other major registry has achieved the same.

Another area where the RMI Registry provides service is with respect to its delegations at the International Maritime Organization (IMO). The RMI delegation is actively involved in the revisions of the International Code for the Construction and Equipment of Ships Carrying Liquefied Gasses in Bulk (IGC Code) and the drafting of the new International Code of Safety for Ships Using Gases or Other Low-flashpoint fuels (IGF Code).

"We intend to leverage our experience and ongoing reputation for quality to contribute to the future development of the gas carrier industry," concluded Mr. Gallagher.

Republic of the Marshall Islands is Offshore Flag of Choice

Rio de Janeiro, Brazil, 17 September 2014

Since the opening of its Rio de Janeiro office in 2012, the Republic of the Marshall Islands (RMI) Registry has firmly established itself as the flag of choice for companies doing business in Brazil. International Registries, Inc. and its affiliates (IRI), who provide administrative and technical support to the Republic of the Marshall Islands (RMI) Maritime and Corporate Registries, opened the Rio de Janeiro office to better service owners and operators both within and outside of Brazil. The RMI Registry is the third largest registry in the world, surpassing 109 million gross tons (GT) and 3,240 vessels in August 2014 with vessels servicing or engaged in the offshore industry representing over 6 million GT of the RMI fleet. Clarkson's Research Services ranks the RMI as the third largest offshore registry with a growth of nearly 9% in the offshore industry this year.

In August and early September, 27 offshore units were registered by the RMI Registry's office in Rio de Janeiro. These registrations have contributed to the rapidly growing RMI offshore fleet which encompasses the full spectrum of vessels including drilling, production, accommodation and service/support units; some of which are ship shaped, self-elevating, semi-submersible, self-propelled and non-self-propelled. "The RMI Registry has captured the diversity of vessel types in the offshore industry under the flag," said Charles McHardy, Senior Vice President, Technical & Gulf Coast Operations. "The RMI Registry has been very active in the offshore and energy sector and seeing industry stakeholders in Brazil choosing the flag is testimony to the Registry's provisioning of highly qualified and experienced offshore personnel," continued Mr. McHardy.

Capt. Luiz Freitas, who manages the Registry's Rio de Janeiro office, will be joined, on 19 September, by Registry representatives from offices in Ft. Lauderdale, Houston and Reston for the annual RMI Offshore Advisory Group (OAG) meeting. The objectives of the OAG are to provide a forum for discussion of issues related to vessels engaged in the offshore industry and general issues affecting the offshore industry among parties with an interest in maintaining the high standards and commitment to safety, quality, and environmental performance of the RMI Registry. The OAG was formalized in 2012 and is open to all persons or entities that operate vessels registered in the RMI or who have an interest in furthering the goals of the Registry. "We are honored that Petrobras agreed to host this year's meeting at the Petrobras Academy here in Rio," said Capt. Freitas. "The registrations over the past six weeks have included 22 vessels under construction from Sete Brasil's Dutch subsidiaries, 2 vessels under construction from Petrobras, the delivery of number 4 out of 5 newbuilding supply vessels from Bravante, and 2 existing units operated by Schahin S.A. GranEnergia will also register one existing unit in the near future," continued Capt. Freitas. "Having the OAG here in Brazil is a wonderful opportunity for these local companies to provide feedback to the Registry and ensure we are meeting their needs," concluded Capt. Freitas.

Republic of the Marshall Islands Registry Strongly Represented During Monaco Yacht Show

Monaco, 25 September 2014

Representatives from International Registries, Inc. and its affiliates (IRI), who provide administrative and technical support to the Republic of the Marshall Islands (RMI) Registry, have been well-represented during the Monaco Yacht Show this week. The RMI Registry is the third largest in the world with just over 109 million gross tons (GT) and more than 3,240 vessels in the fleet overall as of the end of August 2014. With yachts making up 16% of the fleet in terms of the number of vessels, it is important that the RMI Registry is able to respond to the demands of the stakeholders in the yachting industry.

Marc Verburg, Fleet Operations Manager, Yachts of IRI's office in The Netherlands, participated as a discussion panelist at the First Mare Forum Monaco Yacht Summit where topics like the Maritime Labour Convention, 2006 (MLC, 2006), and the role of port States and flag States were addressed. As a quality flag State administration, which is white listed by the major Memorandums of Understanding (MoUs), including the Paris and Tokyo MoUs and United States Coast Guard, the RMI is supportive of efforts towards improving safety, security, environmental compliance and the welfare of seafarers. "We register commercial yachts, private yachts and allow private yachts to be engaged in limited chartering," said Marc Verburg. "We have developed regulatory requirements, as outlined in the RMI Yacht Code, for commercial yachts and private yachts limited charter," continued Mr. Verburg.

Recently the RMI authorized The Squadron as an Aviation Inspection Body for the commercial certification of helicopter landing areas and associated facilities on RMI registered yachts pursuant to the RMI Yacht Code. Mr. Verburg commented to the Mare Forum delegation that "there is an increasing number of RMI flagged yachts making use of helicopter decks and to accommodate this, the RMI is working with entities that are authorized to certify helidecks on behalf of the RMI Maritime Administrator." Furthermore, the RMI Maritime Administrator is working with Maritime Professional Training (MPT), which is based in Ft. Lauderdale, Florida, and has developed the Capstone Course, which is designed specifically for qualified yacht masters to command yachts over 3,000 GT. This new Standards of Training, Certification and Watchkeeping (STCW) compliant Master of Yachts Unlimited Tonnage license provides duly qualified and trained yacht captains a full STCW license/Certificate of Competency (CoC).

"We typically send 5-6 Registry representatives to the Monaco Yacht Show each year," said Patrick Bachofner, Director, Business Development of the Geneva office. "We participated in the Marine Money conference prior to the start of the show and have been engaged in activities during the show to ensure face-to-face communication regarding the RMI's recent initiatives but also to remind stakeholders of our robust network of worldwide offices and experienced personnel which are able to provide service to the yachting industry 24 hours a day, 7 days a week," concluded Mr. Bachofner.

Marshall Islands Registry Celebrates 200th Registered Vessel by Korean Owners

Seoul, South Korea, 7 November 2014

International Registries, Inc. and its affiliates (IRI), provide administrative and technical support to the Republic of the Marshall Islands (RMI) Maritime and Corporate Registries. Since the opening of IRI's office in Seoul in 2007, 201 vessels owned/operated by Korean interests have been registered in the RMI. As of the end of October 2014, the RMI fleet stood at just over 112 million gross tons and 3,300 vessels. Korean owners follow Greece, the United States and Norway, in that order, as the fourth largest shipowning group in the Registry.

"The growth in the number of Korean-owned vessels joining the RMI fleet has been remarkable particularly if you consider the general downturn in the shipping sector during the last few years," said Bill Gallagher, President of IRI. "We are grateful to our Korean owners for their continued support and look forward to strengthening our relationship with them in the years ahead," he continued.

The RMI Registry works closely with all of its owners and operators and strives to promote the quality of vessels registered. The RMI is the only major open registry to be included on the White Lists of both the Paris and Tokyo Memorandums of Understanding (MoUs) and to hold Qualship 21 status with the United States Coast Guard for an unprecedented ten consecutive years.

"Personnel, located in 26 worldwide offices, coupled with the Registry's robust vetting process for ships entering and remaining in the RMI enables the Registry to ensure that quality owners and operators make up the overall fleet of the RMI Registry," said Annie Ng, Head of Asia for IRI.

"More than 70% of the Korean owned vessels in the RMI Registry joined the fleet as newbuilding tonnage," said Captain Young-min Kim, IRI's Representative based in Seoul. "The RMI has an average fleet age of just over 9 years old and 25% of the fleet overall is coming out of yards in Korea," stated Capt. Kim. "The RMI's local presence in the Korean market has not only benefited the local shipowning community but has also provided a local point of contact for registrations coming straight out of the Korean yards," he continued.

"The Korean Register of Shipping (KR) hosted the Registry's semi-annual CSCC meeting in April of this year," said Capt. Kim. "KR also arranged for a tour of the DMSE shipyard and provided members of the RMI delegation the opportunity to meet all KR department heads and build a stronger rapport for future communication," he continued.

"The RMI Registry was relatively unknown in the Korean market until Capt. Kim joined us in March 2007 and developed the market from 5 Korean owned vessels in the Registry in 2007 to having registered 200 vessels in the RMI through 2014," said Annie Ng. "The RMI Registry is committed to our owners, operators and other industry stakeholders in Korea; we have a solid plan to expand the size of the office and increase the number of personnel to meet the growing demand of the local shipping community so that efficient and user friendly service will continue," concluded Ms. Ng.
